YOUR BEST

Wound Care companies advocate educational wound care models such as W.B.P., T.I.M.E. and M.O.I.S.T. as professional education platforms that support customers worldwide in their local wound assessment and treatment to enhance patient care. How practical are these models for Health Care Professionals to support them in their daily practice to provide care to their patients with chronic ulcers? A Mölnlycke® Talks debate.

## Programme:

**3:30** Doors open; light refreshments will be provided

**4:00** Mölnlycke Talks starts

**4:45** Event ends
