

Mölnlycke® prevention story started in 2007 with the launch of our first shaped dressing – Mepilex® Border Sacrum.

Updates to Mepilex® Border Sacrum and Mepilex® Border Heel brought improved usability and coverage of at-risk sacrum and heel areas⁷.

The launch of Mepilex® Border Flex introduced new standards in conformability and protection of other at risk areas^{3,4,6}.

Mölnlycke's pressure injury prevention portfolio now includes:

- Mepilex® Border Sacrum
- Mepilex® Border Heel
- Mepilex® Border Flex
- Z-Flo® Fluidized positioners
- Z-Flex® Fluidized Heel Boot
- Tortoise® Turning and positioning system
- Clinical Learning Hub - powered by Mölnlycke®

Mepilex® Border Sacrum
Mepilex® Border Heel
Mepilex® Border Flex

Mepilex® Border Sacrum and Mepilex® Border Heel with Deep Defense® technology

Deep Defense® technology provides **strength** in the patient sliding direction and **flexibility** in the lateral direction^{1,2}

When a patient lies in bed and the head of bed is elevated, sliding in one direction causes tissue deformation^{1,2}.

Mepilex® Border Sacrum and Mepilex® Border Heel with proprietary **Deep Defense® technology** can help protect against these specific injuries as they provide additional protection in the patient sliding direction^{1,2}.

Mepilex® Border Flex with Flex Technology

Flex Technology allows movement in all directions and improves dressing **conformability**, reducing skin stress^{3,4}

In other anatomic areas at risk of PIs - eg during prone positioning – the extrinsic forces acting on soft tissues are more multidirectional⁵.

Recent computer modelling has shown that the Mepilex® Border Flex dressing with proprietary **Flex Technology** can reduce high stresses by up to **70-80%** in soft tissues over the iliac crest when exposed to multidirectional forces⁶.

Mölnlycke® Pressure Injury Prevention portfolio

Supine positioning

Prone positioning

OCCIPUT:
Z-Flo® Fluidized positioner
or
Mepilex® Border Flex

SCAPULA:
Mepilex® Border Flex

ELBOW:
Mepilex® Border Flex

SACRUM:
Mepilex® Border Sacrum

HEEL:
Mepilex® Border Heel
or
Offload:
Z-Flo® Fluidized positioner
Z-Flex® Heel boot

FOREHEAD and CHIN
Mepilex® Border Flex Oval

CHEST
Mepilex® Border Flex

ILIAC CREST
Mepilex® Border Flex

KNEE
Mepilex® Border Flex

DORSUM of FOOT
Mepilex® Border Flex

For sacrum and heel use

Mepilex® Border Sacrum and Mepilex® Border Heel
With proprietary Deep Defense® technology

For other anatomic areas use

Mepilex® Border Flex and Mepilex® Border Flex Oval
With proprietary Flex Technology

Did you know?

We also have
Tortoise® Turning &
positioning system
for continuous offloading
of the sacrum in supine
positioning

Z-Flex® Heel boot and Z-Flo® Fluidized positioners
For offloading of the heel and other extremities
